About Travelling Fellowships

The Company of Biologists’ journals – Development, Journal of Cell Science, Journal of Experimental Biology and Disease Models & Mechanisms – offer Travelling Fellowships of up to £2,500 or currency equivalent to graduate students and post-doctoral researchers wishing to make collaborative visits to other laboratories. These are designed to offset the cost of travel and other expenses. There is no restriction on nationality.

Travelling Fellowships

Applicants should be working in the field of the journal to which they apply and plan to visit another laboratory. Each application will be judged on the excellence of the candidate, as well as the importance and innovative quality of the work to be done.

Please review the Frequently Asked Questions (FAQs) before completing and submitting your application.

APPLY FOR A GRANT

Currently, you can apply for FEMS Research and Training Grants via FEMS Grants Online and for Meeting Organizer Grants by sending us the completed documents (below) to grants@fems-microbiology.org.

You can apply for Meeting Attendance Grants starting 1 January 2018 via FEMS Grants Online. Documents for this grant will be available starting 1 January 2018. If you have applied for a Meeting Attendance Grant before 1 November 2017, you can find your application information here.

DOCUMENTS

When you apply for a FEMS Grant, please be informed of the Grants Regulations. During the application process, we ask you to fill and upload several documents. You can find the required templates in the bottom table.

FEBS Fellowships

Overview

Our Fellowships Programme began in 1979. Since then it has come to be known as a highly competitive and prestigious programme. This is thanks to our rigorous selection methods and the package we offer fellows.

As part of our commitment to young scientists, we offer both Short-Term Fellowships and Long-Term Fellowships to members of our Constituent Societies, as well as Summer Fellowships to promising young students. We also offer Scholarships designed exclusively for members of our Constituent Societies in certain disadvantaged FEBS countries. In addition, FEBS offers awards and follow-up grants to past holders of a FEBS Long-Term Fellowship. Our Fellowships and scholarships are intended to allow members of our Constituent Societies working in a FEBS country to work in a laboratory in another FEBS country. Because of their young age, applicants for a Summer Fellowship need not be members of a FEBS Constituent Society. For information on our Constituent Societies, go to the Our Members section of the website.

For general information about FEBS Fellowships please refer to the General Guidelines for Fellowships. For details on each Fellowship type, follow the links on the right of this page for detailed specific guidelines and application forms. Any outstanding queries on the FEBS Fellowships Programme can be sent to the FEBS Fellowships Committee via the Contact Us section of the website.

2018 Fellowship Applications

Application deadlines in 2018 are as follows:

- Summer Fellowships: 1 April 2018
- Follow-up Research Fund (for FEBS Fellows): 1 April 2018
- Long-Term Fellowships: 1 October 2018
- Short-term Fellowships and Collaborative Developmental Scholarships: applications can be submitted throughout the year.

For Long-Term Fellowships, applications need to be submitted online at Fellowships.Febs.org. For the 1 October

Georg Forster Research Fellowship

Top opportunities for researchers from developing countries

Please send us your application,

- if you are a researcher with above average qualifications in a developing or transition country (see list of countries),
- if you intend to carry out long-term research of your own choice (6 to 24 months) at a research institution in Germany together with an academic host you have chosen yourself,
- if your research outline includes aspects that are important for the continued development of your country or region of origin and
- if you want to contribute to the exchange of knowledge and methods between Germany and your country of origin.

https://www.humboldt-foundation.de/web/georg-forster-fellowship.html
DAAD grants provide foreign academics and scientists with an opportunity to carry out research and continue their education in Germany. There are funding programmes for various qualification phases and stages in a career.

The aim of this particular programme is to support short-term research stays and thus promote the exchange of experience and networking amongst colleagues.

Who can apply?
University teachers and established academics and scientists who have usually completed a doctoral degree and work at a university or research institute in their home country.
Travel Grants

The Boehringer Ingelheim Fonds awards Travel Grants to junior researchers who are currently conducting an experimental project in basic biomedical research and wish to pursue a short-term research stay or attend a practical course of up to 3 months. For further requirements please refer to "Who can apply?"

Purpose

- to learn clearly-defined methods useful for your ongoing research and the work of your research group at home by visiting another laboratory, or by attending research-orientated courses including practical training (the practical part has to cover at least 50% of the course);
- to enable graduates from abroad and their potential PhD supervisors to evaluate the scientific and personal prerequisites before embarking on a PhD thesis. To this end, the graduate student shall pursue a short project in his/her potential PhD supervisor’s laboratory for at least 4 weeks.

Profession & Career

Awards & Grants
- Excellence Award
- Young Investigator Awards
- Research grants
- TAE Awards for Training Achievements
- Attendance grants
- Study Group Research Funding
- ECCMID travel grants

ECCMID Travel Grants 2018

Funding
A travel grant will include full registration to the congress and a travel allowance amounting to EUR 500 (paid in cash onsite against presentation of an identity card or passport).

Eligibility criteria
Travel grants and free registrations are both conditional upon the acceptance of an abstract. The applicant must be presenting author of an abstract submitted for the 28th ECCMID and as well as an ESCMID Young Scientist member (35 years-of-age or younger).

TASME Awards

Teaching Innovation and Excellence Prize

An annual prize recognizing talent and ingenuity displayed by those embarking on a career in medical education. The prize will be primarily focused on recognizing teaching but consideration will be given to entries that showcase other relevant educational activity.

Poster Prize

The TASME poster prize is an annual prize in its fourth year, designed to recognize creativity and achievement displayed by those embarking on a career in medical education. The poster can encompass any aspect of medical education including educational research, teaching activity and innovation.

Bursary for Professional Development

This is a new bursary whereby successful applicants can win up to £200 for a specific medical education event or project. Applicants will be chosen on the basis of their commitment to medical education and the proposal for the use of bursary.

Короткострокові стажування у Франції для молодих українських науковців

Посольство Франції в Україні двічі на рік організовує конкурс на короткострокові стажування (1-2 місяці) у Франції для молодих українських науковців.

Стипендії розміром 767 - 1060 євро на місяць. Витрати на транспорт не покриваються за рахунок стипендії. Цей вид стипендій пропонується для молодих українських науковців (аспірантів, докторантів, науковців) віком до 40 років, робота яких потребує дослідження та/чи тісної співпраці з французькою лабораторією [1-2 місяці]. Кандидати, що вже отримували фінансування такого типу за останні три роки, не можуть брати участь у конкурсі.

Дані дослідницькі стажування повинні відбуватись у рамках існуючого партнерства або партнерства, що розвивається між французькими та українськими науково-освітніми закладами.

Кандидати повинні:
заповнити форму он-лайн реєстрації французькою чи англійською мовою
відіслати електронною поштою на адресу bgfselection@gmail.com:
- формуляр- опис наукового проекту французькою чи англійською мовою
- резюме кандидата
- лист підтримки від українського закладу, написаний французькою чи англійською мовою (формат pdf)
- лист підтримки від французької лабораторії, написаний французькою (формат pdf)
